

Elizabeth Munzón Artist Bio

Elizabeth Munzón is an American painter known for her vibrant figurative and landscape paintings. Her work often addresses her Mexican-American ethnic identity within the context of art history and Mexican Pre-Hispanic mythologies. A subject matter chosen to educate herself about the stories and myths of her culture. As Munzón learns about these mythologies; she creates her own interpretation of the narratives by using the figure, warm and cool color palettes, and compositions inspired by impressionist and Pre-Raphaelite artists.

A co-founder of Flatline, an artist-run gallery in Long Beach CA, Munzón also currently serves as the Director for the gallery where she seeks to create an alternative and inclusive platform for new and emerging artists and curators where they can express their visual ideas.
